

MUHAMMAD ASAD LAL

asad@njust.edu.cn | +86-18651620635 | WeChat: iamAsadLal

ABOUT ME

I am currently pursuing a Master’s degree in Computer Science and Technology at Nanjing University of Science and Technology. I have experience in programming, research, and technical problem-solving, with a strong willingness to learn and adapt in a professional environment. I aim to contribute to cutting-edge technologies and have a positive impact on both organizational and societal settings.

ACADEMIC QUALIFICATION

- Master of Science in Computer Science & Technology**
Nanjing University of Science and Technology, China
Research: “Manufacturing Optimization using Metaheuristics Algorithms”
Supervisor: Professor Bo Huang

Sep 2024 - Apr 2027
- Bachelor of Science in Computer Science, CGPA 3.82/4.00 (Top in Class)**
Government College University Faisalabad, Pakistan
Final Year Project title: “Heart Disease Prediction (Android Application)”
Supervisor: Professor Ali Raza Shah

Aug 2019 - Sep 2023

RESEARCH WORK

- RCOA for Fundus Image Segmentation**
Algorithm for Medical Image Analysis

Jan 2025 - Present
- Researching retinal fundus image segmentation for medical image analysis.
 - Proposed an optimization-based method for accurate multi-level threshold selection in fundus images.
 - Applied Otsu-based image segmentation to analyze important regions in retinal images.
 - Provides recommendations for consulting with heart professionals if necessary.
 - Evaluated the method on fundus image datasets using standard performance measures.

DEGREE PROJECTS

- Heart Disease Prediction, Final Year Project**
Android Application

Aug 2019 - Sep 2023
- Developed an AI-based Android app for predicting users' heart health.
 - Implemented a Logistic Regression machine learning model for classification.
 - The app categorizes users' heart health as "Healthy" or "Unhealthy".
 - Provides recommendations for consulting with heart professionals if necessary.
 - Utilized Python for advanced Machine Learning techniques and predictive modeling.
 - Employed Java and Android Studio for app development.
 - Aims to positively impact public health by enabling early detection and preventive measures.
- Deep Learning-based Face Recognition, Semester Project**
Deep Learning Model

Feb 2023 - May 2023
- Implemented a deep learning model using convolutional neural networks (CNNs).
 - Tasked the model with performing face recognition tasks.
 - Trained the model on a large dataset to enhance accuracy.
 - Achieved precise identification of faces and patterns within images.

RESEARCH DIRECTIONS

- Artificial Intelligence
 - Image Processing
 - Computer Vision
- Machine learning
 - Pattern Recognition
 - Deep Learning Models

PROFESSIONAL EXPERIENCE

Android Development, Internship
Idealogic Software House

Oct 2023 - Mar 2024

- Worked as an Android Development Intern and contributed to mobile app development projects.
- Collaborated closely with a skilled team throughout the app development lifecycle.
- Enhanced programming skills through practical application and learning from experienced professionals.
- Obtained valuable insights into dynamic software development practices within a professional setting.

PROFESSIONAL AND PERSONAL SKILLS

- **Programming Languages:** Proficient in multiple programming languages including Python, Java, and C++.
- **Android Development:** Experienced in Android development and API integration.
- **Machine Learning & AI:** Skilled in ML techniques, data modeling, and AI-driven solutions.
- **Microsoft Office:** Proficient in Microsoft Office for documentation, data analysis, and presentations.
- **Problem-solving:** Skilled at using logical reasoning and innovative solutions to address complex challenges.
- **Adaptability:** Quick learner, passionate about continuous improvement and innovation.
- **Communication & Writing:** Contribute to Israel Hayom's Opinion section as an international article writer, providing insightful analysis on global issues. www.israelhayom.com/writer/muhammad-asad-lal

AWARDS & CERTIFICATIONS

Chinese Writing Competition, Award Certificate
Nanjing University of Science and Technology

Dec 31, 2024

Manage Sensitive Data and Security Policies within GitHub, Certification
Microsoft

Apr 01, 2024

Outstanding Academic Performance Award
Government College University Faisalabad

Sep 29, 2023

Machine Learning with Python, Certification
International Business Machines (IBM)

Nov 22, 2023

Deep Learning with TensorFlow, Certification
International Business Machines (IBM)

Nov 06, 2023

Computer Application and Office Professional, Certification
Government of Punjab Vocational Training Council

Oct 17, 2017

EXTRA-CURRICULAR ACTIVITIES

Basic Community Safety Training
Punjab Emergency Service Rescue 1122, Pakistan

Jun 15, 2023

Life Saver Course Training
Pakistan Life Savers Programme

Jun 15, 2023

BSAFE Security Awareness Training
United Nations Department of Safety and Security

May 26, 2022
